

# It's Amazing What Offshore Energy Could Do for the *UNITED STATES*

**85%** of our nation's federal offshore acreage, including the entire Atlantic Outer Continental Shelf (OCS), is off limits to oil and natural gas development.

A new report from Quest Offshore Resources shows that providing access to the Atlantic OCS

for oil and natural gas development could spur a flurry of investment and economic activity that could put hundreds of thousands of Americans to work, provide billions of dollars for federal and state treasuries, and further strengthen our energy security.

## Providing access to the Atlantic's offshore oil and gas resources could deliver by 2035:
