Part II: Selection Criteria – SAFETY PRACTICE AWARD

A complete response is required for each of the selection criteria identified below. Please be clear and concise, limiting your responses to two pages for each criterion. The judging panel will rely heavily on this information in determining how well the company (companies) meets the award criteria. The judges may verify, or seek clarification regarding, the information or data used to explain or support each criteria.

Innovation

Does the project, program or organization involve the use of new technology, approaches or methods superior to standard safety methods and practices? If so, describe this advancement.

Achievement

Describe how the nomination is a significant safety achievement, rather than simply recognition of a company “doing its job”.

Documentation

Please provide documentation of the actual or reasonably anticipated tangible results of the nomination. This also may include outside or independent reviews of the nomination.

Industry Adaptability

The nominated project, program or organization should be an inspiration or example to the entire industry. Please explain how this product, program or organization could be translated to other companies or be useful to a wide segment of the industry.

Please send **5 copies** of your nomination to:
