Part II: Selection Criteria – SAFETY PRACTICE AWARD

*A complete response is required for each of the 4 selection criteria identified below. Please be clear and concise, **limiting your responses to two pages for each criterion**. The judging panel will rely on this information in determining how well the company (companies) meets the award criteria. The judges may verify or seek clarification regarding the information or data used to explain or support each criterion. **(Any additional materials submitted will be used for illustrative purposes only, and will not be used for judging.)***

Innovation

Does the project, program or organization involve the use of new technology, approaches or methods superior to standard safety methods and practices? If so, describe this **advancement/innovation**.

Achievement

Describe how the entry represents a significant **safety achievement**, rather than simply recognition of a company “doing its job”.

Documentation

Please **provide documentation** of the actual or reasonably anticipated **tangible results** of the entry. This also may include outside or independent reviews of the entry.

Industry Adaptability

The project, program or organization should be an **inspiration or example** to the entire industry. Please explain how this product, program or organization is **translatable** to other companies or **useful** to a wide segment of the industry.

Please mail **5 hard copies** of your entry **by Friday, February 14, 2020** to:
