

# THE ECONOMIC IMPACTS *of the* GULF OF MEXICO OIL & NATURAL GAS INDUSTRY

A study by EIAP detailing the irreplaceable energy, economic growth and security the Gulf of Mexico provides.

Offshore oil and gas companies make up the fabric of countless communities along the Gulf Coast. From production companies to drillers to fabricators to marine construction and more, offshore energy is a complex ecosystem of companies and people that produce energy safely and reliably.

## OFFSHORE OIL & GAS COMPANIES ARE THE COMMUNITY PILLARS

Jobs provided by the Gulf of Mexico oil and gas industry in 2019:

### LOUISIANA

**94,000**

JOBS SUPPORTED

### MISSISSIPPI

**20,000**

JOBS SUPPORTED

### ALABAMA

**28,000**

JOBS SUPPORTED

### TEXAS

**147,000**

JOBS SUPPORTED

## 2040: Impact on Gulf Coast Jobs

### LOUISIANA

**104,000**

JOBS SUPPORTED  
BASELINE

**19,000**

JOBS SUPPORTED  
NO PERMITS

**54,000**

JOBS SUPPORTED  
NO LEASING

### MISSISSIPPI

**22,000**

JOBS SUPPORTED  
BASELINE

**5,000**

JOBS SUPPORTED  
NO PERMITS

**11,000**

JOBS SUPPORTED  
NO LEASING

### ALABAMA

**29,000**

JOBS SUPPORTED  
BASELINE

**7,000**

JOBS SUPPORTED  
NO PERMITS

**17,000**

JOBS SUPPORTED  
NO LEASING

### TEXAS

**154,000**

JOBS SUPPORTED  
BASELINE

**39,000**

JOBS SUPPORTED  
NO PERMITS

**70,000**

JOBS SUPPORTED  
NO LEASING

## The Offshore Community Stretches Across America

All 50 States are part of the Gulf of Mexico oil and natural gas supply chain

The offshore oil and natural gas industry also has a supply chain that stretches through all 50 states. **In 2019, the offshore oil and gas industry supported 54,000 jobs outside of the Gulf Coast states.** Energy-restricting leasing and permit bans would decimate these American jobs. By 2040, we could see:

**57,000**

JOBS SUPPORTED  
BASELINE (2040)

**18,000**

JOBS SUPPORTED  
NO LEASING (2040)

**8,000**

JOBS SUPPORTED  
NO PERMITS (2040)
