

ENERGY EDUCATION FOUNDATION

Annual Gala

2025

For over 25 years, the Energy Education Foundation has cultivated the future of the energy industry by equipping the next generation, facilitating dynamic networking opportunities, and driving innovation.

The 2025 Energy Education Foundation Gala will be a celebration of inspiration and innovation, looking forward to the future while honoring our past. A signature moment of the evening will be dedicated to presenting our 2025 Hall of Fame Honorees and Rising Stars, individuals whose leadership and vision continue to shape the future of energy.

Join us on Thursday, October 9, 2025, as we unveil our newly designed mobile learning experience, EnergyXP, and look ahead to the future of STEM education. Together, we'll experience energy in action!

2025 HALL OF FAME HONOREES

Industry Pioneer Award: Keith Paul Reserve Equipment	Pioneering Technologies Award: AI Images of Subsurface Pipelines & Hurricane Damaged Platforms Dr. Souvik Mukherjee, EmPact.AI, LLC
